Due to the location, type of the restaurant, and the demographics of its customers, the results of this study may be not generalized to all restaurants. When Will Travelers Go the Distance? The questionnaires were given to restaurant customers after they finished their main courses.

PolicyandEnvironmentalApproaches. Although all five service fairness constructs had different degrees of impact on overall fairness, customer satisfaction, overall quality, and behavioral intentions, distributive fairness and seller-to-seller fairness are the two critical factors that determine whether or not the participants will recommend or return to the restaurant in the future. Using Standardised Tests in Education. East Asian consumers gave better ratings on both dimensions than American consumers did.
