This workshop will focus on encouraging students to overcome the typical problems they face when writing by using the powerful resource of the visual arts as an effective tool to boost creativity and self-confidence. The presenter would like to share how the remote use of a microscope by means of netbooks in a biology class can mean learning how to formulate questions and read in real time. The content of this material involves the use of English and Spanish tangled with the cultures and languages of the communities that live in our province; and, on the introduction of e-learning material with the support of the Learning Technologies.

Key findings with respect to common myths and misunderstandings that surround She carries forward research projects on intercultural education and border pedagogy and is the author of intercultural magazines and resource materials. In this workshop we will demonstrate materials and activities specially designed to apply Project-based Learning in the teaching of History in English at our school. Challenging my Knowledge, Reinforcing my Beliefs. La nave sube sus escudos y queda blindada frente al ataque.
