Marcia Conner rated it it was amazing May 05, With more than 25 years of research in organizations of all sizes and across industries, she has developed deep insights about the realities of working with technology. Griffith reveals how top performers "plug in" to achieve impressive results. This is the book to read in becoming a plugged-in manager, -employee-leader. Shows what it takes for business managers to succeed as technology and organizations become more and more complex. Profiles exceptional leaders and organizations who are plugged-in, such as Tony Hsieh, CEO of Zappos. Clear, practical and easy to understand. What worked for me? Shows what it takes for business managers to succeed as technology and organizations receive my copy of this book through 12Books. The cornerstone of Griffith's work is an easy-to-understand framework for plugging in, explained through three core practices:
