Each case-based chapter follows one of two formats: You must be logged in to access this feature. This book is a pleasant and novel adjunct to learning which will prove to be of some interest to all clinicians, particularly those looking for a fresh resource to aid their learning. PhysicianstotheSystem. Although the succinct treatment of the subject matter prohibits the discussion from achieving its conceivable depths to some degree, this is largely compensated for by a robust chapter reference section composed of citations germane to the topic at hand. Each case includes a boxed Key Points section and self-assessment questions. Shorten, George; Dierdorf, Stephen F.
