And although the radicals, for the most part, accepted the phenomenon of industrialism, especially technology, they were uniformly antagonistic to capitalism. Strictly defined as the science of humankind, it could be seen as superseding other specialized disciplines such as economics and political science. InternationalEncyclopediaoftheSocialSciences. Not all sociologists in the 19th century conceived their discipline in this light. Culture, as a concept, called attention to the nonbiological, nonracial, noninstinctual basis of the greater part of what is called civilization:

The rise of the ideal of science in the 17th century was noted. This book is not yet featured on Listopia.
