Globalization, threats that transcend national borders, new ethnic, religious wars among the people fought along "asymmetric" principles, the peace support or crisis response missions imposed by status quo powers on their militaries, all call into question the relevance of the Clausewitzian view of war and the primacy of politics in it. It could be through conference attendance, group discussion or directed reading to name just a few examples. Eastern Europe Western Europe. Summary This innovative book presents the reader with a clear international He finds that imposing Huntington's model of civil-military relations on Eastern Europe was ill-advised: We provide complimentary e-inspection copies of primary textbooks to instructors considering our books for course adoption. Sociology, social psychology, anthropology and the science of conflict are grappling with these issues, common to all armed forces, with a new fervour. It brings together an international cast of contributors from the various disciplines. If you need help or have a question for Customer Service, contact us.
